

Moses and Joshua: Small-Group Project

For this project you will compare and contrast Moses and Joshua as leaders of Israel in both written and visual presentations. Follow these steps:

- Review the call of both leaders and their responses.
- Identify two to three examples from Moses' and Joshua's tenure of leadership that illustrate a similar characteristic of leadership.
- Make comparisons between the examples you have identified.
- Interpret how and why the author(s) make these comparisons between Moses and Joshua.
- Identify a difference between the leadership and success of Moses and Joshua. Be careful to consider your response and support it.
- Read and make reference to the following Scripture passages in your project:
 - Deuteronomy 31:7–8 (call of Joshua)
 - Joshua, chapters 3–4 (crossing of the Jordan)
 - Joshua 5:13–15 (Joshua's vision)
 - Joshua 21:43—22:34 (tribes settling in Canaan)
 - Joshua 23:1—24:31 (Joshua's farewell)
- Identify similar passages on Moses from the Book of Exodus for your comparison. List those passages in the write-up of this assignment. Review your notes and previous handouts for guidance.

Write-Up: Your write-up must be a double-spaced, typed, well organized multi-paragraph presentation of the points listed on this handout. Your write-up must be well supported by passages about both Moses and Joshua to illustrate their similar leadership characteristics. Include citations from Scripture and other resources consulted.

Visual: Prepare a visual, in your medium of choice, comparing or contrasting a similar event in Moses and Joshua's leadership that you discuss in your project write-up.
