

# The Signs of the Power of the Holy Spirit

In your group, look up the biblical references in the Acts of the Apostles for the first section, the sign of Fire. After discussion based on these readings, fill in the group's response to the topic in the second column. Then discuss the topic of the third column and note the group's response in that column. Continue this process for the signs of Wind and New Languages. (For all responses, use the back of this paper as needed.) Be prepared to share your responses with the entire class.
