

## THE HUMAN PERSON

Below are five statements, written in code, about the human person. Each letter of the alphabet is represented by a symbol. The same symbol represents the same letter in all statements. Review chapter 7 in *The Catholic Connections Handbook*, then try to decode the statements. To get you started, the symbols for eight consonants and four vowels have been provided.

A = ሄ	D = ኗ	E = ቨ	H = ቱ	I = ቻ	L = ሰ
M = ሀ	N = ር	O = ኃ	R = ዐ	S = ጽ	T = ሰ

## SOLUTION—THE HUMAN PERSON

1. Being human means we are not perfect and that we do not always understand why things happen the way they do.
2. Human beings are made in the image of God and have the ability to love and care for one another.
3. The human person is made up of a physical body and a soul, which is the spiritual element that gives life and survives after death.
4. Although human beings are not born evil, we all have the wound of original sin from birth.
5. Temptation is something that makes sinful things seem fun, and original sin makes it hard for us to say no to temptation.
