## Mercenary, Slave, or Disciple

In the far left column, identify which of the scenarios apply to you by circling the things you do and crossing off what you don't do. Then identify your greatest motivation for each scenario as described in the three column headings to the right. Is your motivation mostly driven by the hope of receiving a reward or of avoiding punishment, or are you motivated because you find joy in the good and want to give love away? Write a sentence in the appropriate box for each scenario about why you chose that motivation.
